## PROFESSIONAL SUMMARY

Conducting user research and testing to understand the needs, behaviors, and motivations of your target audience. Collaborating with cross-functional teams such as product managers, developers, and marketers to define and implement innovative solutions for the product direction, visuals, and user experience. Creating wireframes, prototypes, and high-fidelity mockups to communicate design ideas and gather feedback from stakeholders. Developing and maintaining design systems and style guides to ensure consistent and coherent user experiences across the product. Ensuring that the design meets technical and accessibility standards. Analyzing user feedback and metrics to inform design decisions and continually optimize the user experience. Keeping up-to-date with design trends, best practices, and new technologies. Collaborative Product Designer with expertise in determining functionality and enhancements. Knowledgeable in creating production-ready designs. Offering a successful career history comprising more than 15 years.
